EFX Combi 180x120

1. Assembly Parts: Metal “L” profiles, bolts, metal cords, metal screw “eye” hooks.

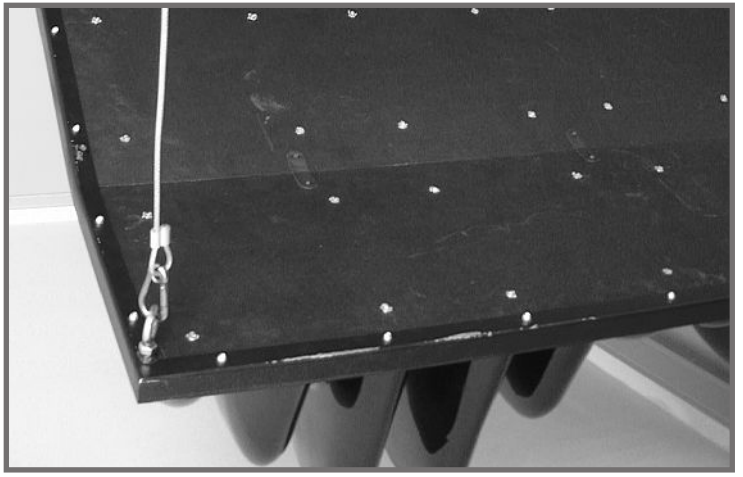

2. Unfold the plate and attach the two metal “L” parts (with the bolts supplied), to keep the EFX’s hinge straight, unfolded and secured.

3. Screw all the four metal eye hooks on all corners.

4. Lock the metal carabiner (with the metal cord) to the metal screw eye hooks. Repeat all this in the four corners.

5. It’s all set to use the EFX Combi as rigging element.
